equilux®

security, style and
peace of mind

Equilux is Charter Global's premium brand dedicated to tailored security shutter solutions for prestigious and heritage properties. Our products offer a seamless blend of sophistication and functionality, ensuring the protection of homes and the safety of owners, whilst blending with the individual architectural design and property style.

The pages that follow show a small selection of the properties where we have had the privilege to showcase our Equilux shutters.

Security, Style and Peace of Mind

GUINNESS

Blending Design with Protection in Two Modern Homes

Two elegant residences were developed in a prestigious neighbourhood, offering spectacular views and sophisticated living.

Equilux shutters were installed throughout both properties, providing a high level of security while blending seamlessly with the architectural design. Integrated early in the build, the lintel shutter systems allow the shutters to remain completely hidden when open.

Connected to a whole-house management system with tablet controls and light-sensitive safety profiles, the shutters ensure effortless operation and complete peace of mind.

View a short video of the completed project by scanning the QR code:

Unique features included single shutters spanning 6m stairwell windows, smart solutions for corner-glazed balconies, and an innovative bottom-rolling shutter system for the top-floor chill-out area. Finished in RAL white.

Uber Luxury Out-of-Town Retreat, Surrey

This extensive refurbishment of royal proportions boasts the ultimate in luxury living. With the interior design to the most exacting proportions reflecting the client's tastes for style, combining classic influences with a contemporary edge.

Equilux Shutters installed to lower ground and ground floor windows and doors.

Enhanced with a total of 36 Bolt-On shutters, finished in a clean white colour, and connected into the building management system via iControl.

Ultimate Relaxation, London NW3

This large family home boasts 5 bedrooms, all with en-suites, and a separate staff area. A large swimming pool and bar area to the basement, with access to the large garden offers the ultimate relaxation.

Equilux Shutters were installed to the rear elevation and bedroom suites.

16 Bolt-On shutters integrated into the window openings and finished in RAL 9010 Pure White to complement the interior design. Controlled with push buttons.

Weekend Sanctuary, Beaconsfield

A new build property by well known local developers includes all the luxury requirements to suit a busy and successful lifestyle. Extensive leisure facilities and entertaining space meet the needs of this primary client residence.

The new build was enhanced with 27 shutters across all windows and doors, finished in RAL 9010 Pure White. Bespoke brick slip lintels. Integrated into the BMS via iControl + Obstacle Detection.

Contemporary Extension, Cotswolds

A mix of traditional master craftsmanship combined with the latest building design techniques have been effectively combined in this stunning property in the heart of Cotswolds countryside.

Winner of the Gold Award for the RIBA Private House category.

Equilux shutters installed in all bedroom suites, for both security and solar control.

7 bespoke lintel shutters finished in AA23 Natural Anodised colour. Controlled with push buttons.

Exclusive Residence In Primrose Hill

The three-storey home is seated proudly within the affluent neighbourhood, with every possible luxury item imaginable. The property was to serve as the main residency of the client's family, and the shutters were to provide year-round security.

A completely bespoke lintel security system. 60 Built-In shutters with insect mesh integrated into the 4,000sqm new build. Finished in RAL 9016 Traffic White & RAL 9005 Jet Black for the pool area.

Refurbished Property In St Johns Wood

This recently refurbished home was designed to act as the London residence of the client. The classic interior design required that security measures could be aesthetically concealed, and intelligently incorporated to secure the property when vacant.

Equilux Shutters were installed to allow ground floor and first floor windows and doors.

30 shutters integrated into the luxury West London property. Finished in white to complement the beautiful interior design. Seamlessly integrated with the home automation system.

Beautiful Riverside Retreat, Marlow

Located in one of London's most prestigious neighbourhoods near the River Thames, this luxury new build was the latest addition the owner's collection of homes. Aware of the risks during periods of vacancy, Equilux shutters delivered above expectations for security and design requirements.

Over 20 shutters installed into the luxury new build, finished in white and RAL 7047 Matte grey.

Traditional English beauty in The Chilterns

A beautifully proportioned & located new build family mansion situated in the rolling valleys of the Chilterns, with every conceivable convenience. Designed and constructed as the main family residence, the detail of both the construction and the fit-out were to the highest possible specification.

Providing total security to all doors and windows whilst the client was in residence, and when absent, Equilux shutters were effective for security, visually discrete and interfaced seamlessly into the building BMS system.

68 shutters including sub-assembly frames to support the stone mullions. Perforated to allow light and air movement. Bespoke automation system.

equilux®

security, style and
peace of mind

From listed buildings to contemporary properties, refurbishment to new build, Equilux Shutters provide a tangible physical security solution for maximum protection and peace of mind.
